WWW.CULTUREGUARD.COM

For those good, wise and informed teachers who refuse to participate in the SOGI agenda, we Thank YOU!

Examples of bullying and abuse of power by school administrators and others recruited to be "SOGI Leads" is already being recorded. Please record all abuse and report it to Culture Guard via the contact form at CultureGuard.com.

Please stand against this agenda for the sake of all students, not just the ones that have the privilege of passing through your classroom.

BCTF is your union; teachers have the power—one vote at a time—to take back their union, and to refocus it on education, rather than radical cultural change. Say "No" to SOGI; stop the hijacking of schools by politically sectarian sex activists, and vote for BCTF leadership that makes public education desirable, and inspires respect for you as a teacher.

Restore public education and the
Respect teachers once had.

**I'M A PARENT;
YOU'RE A TEACHER.
BCTF IS ABUSING
US BOTH.**

A graphic of a green chalkboard with white text. The text reads: "The influence of a good teacher can never be ERASED". To the right of the text is a blue eraser and a white computer mouse.

The influence of
a good teacher
can never be
ERASED

As a teacher, you know the power and influence you have over your students, especially young children. You have the power to do good, you can also do harm.

Please inform yourself about the SOGI 123 agenda, who is behind it and the abuse that will result. This agenda is inclusive, and destructive.

Gender spectrum The idea that there are many gender identities (woman, man, cisgender, trans, two-spirit) and a range of gender expressions (ways people present their gender identity through hairstyle, clothing, behaviours, etc.).

Gender identity A person's internal sense of being a man, a woman, genderqueer, etc. This is not the same thing as a person's biological sex.

Gender dysphoria A psychological condition marked by significant emotional distress and impairment in life functioning caused by a lack of congruence between gender identity and biological sex assigned at birth.

Gender expression The ways a person presents her or his sense of gender to others, e.g., through clothes, hairstyle, mannerisms, etc.

Genderqueer Refers to individuals or groups who identify outside of the male/female binary. This is a politicized term or identity often used by people who intentionally challenge dominant gender norms.

Gender non-conforming Refers to people who express gender in ways that differ from social expectations of the sex and gender assigned to them at birth.

Gender fluid A fluctuating mix of the gender identities available.

Cisgender A person whose gender identity and gender expression match the gender typically associated with their biological sex. For example, a female who identifies as a woman.

Pangender A person who identifies and/or expresses the many shades of gender. Multi-gender and omni-gender are other terms used.

Trans An umbrella term that can be used to describe people whose gender identity and/or gender expression differ from what they were assigned at birth. Some trans people may choose to medically transition by taking hormones or having surgery. Some trans people may choose to socially transition by changing their name, clothing, hair, etc.

FTM Generally used to refer to anyone assigned female at birth, but who identifies or expresses their gender as male all or part of the time.

MTF Generally used to refer to anyone assigned male at birth, but who identifies or expresses their gender as female all or part of the time.

Intersex Refers to people whose reproductive or sexual anatomy is not easily defined as male or female. There are a variety of ways someone could fit in this category, ranging from having ambiguous genitalia to having a mixture of XX and XY chromosomes. The word hermaphrodite was historically used to describe these individuals, however, this word is considered highly offensive today.

Two-spirit An Aboriginal term describing the embodiment of both masculine and feminine spirits. This identity is not limited to gender expression or sexuality, but encompasses them both while incorporating a spiritual element.

Social transition The social process that a trans person may go through when shifting from one gender expression to another. This may include steps such as changes in style of dress and the selection of a new name and pronouns.

Medical transition A term most commonly used to refer to the medical process that a trans person may go through when shifting from one gender expression to another. This may include steps such as hormone replacement therapy and/or surgeries.

Pronoun The word one uses to describe themselves, such as he, she, they, ze, hi, etc.

Transphobia Acts of discrimination directed at trans individuals

What is SOGI?

SOGI stands for Sexual Orientation and Gender Identity. It's the political rebranding of LGBTQ2S++— Lesbian, Gay, Bisexual, Transgender, Queer, Two-Spirited—and whatever else an individual wants to call themselves.

SOGI is a sectarian political agenda that uses coercive psychological techniques to sexualize children, and to alter a child's natural gifting and characteristics inherited with their DNA. SOGI is designed to program children to dissociate from being "boys and girls"—male or female—and to reprogram them to embrace "gender fluidity, free from a heteronormative society."

In the fall of 2016, recruitment of school administrators, teachers and support workers, aided by the BCTF, began. These "recruitments" were trained to be "SOGI LEADS". Some BC school districts held SOGI 123 indoctrination workshops, and other training sessions were held during the SOGI Summit in Richmond and other venues. Once trained, "SOGI Leads" are empowered to mastermind implementation of the SOGI sex activists' political agenda in their school district—without parental knowledge or even School Trustee approval.

SOGI 123 lesson plans have been created for ALL grade levels. Teachers are told, or will be told, they must incorporate SOGI into their lessons. SOGI 123 lesson plans strategically attack the child's natural modesty and innate sense of self; it dismantles the reality of every child having a mother and father, and deconstructs healthy and safe family structures—a reality for the majority of children—by having them imagine what it would be like to have two moms or two dads. (This example is taken from SOGI 123 lesson plan for Kindergarten and Grade One.) This is simply fascist brainwashing—of teachers as well as students. SOGI is intellectually dishonest, and requires embracing delusions over facts.

Glen Hansman, sex activist & BCTF president, has this to say about the SOGI agenda and YOUR involvement in his July 7, 2016 correspondence to Dave Byng, then Deputy Minister Education – The Federation appreciates and welcomes the emphasis on specific new facets of the curriculum, such as the focus on integrating Aboriginal ways of knowing, historical apologies, and the government commitment to ensuring LGBTQ-inclusive curriculum is in place. With regard to the latter we look forward to working with ARC and Ministry reps on the SOGI Work Group and applaud the Ministry for joining in this important initiative. We believe this to be an area in which the Ministry and school boards will need to plan for in-service opportunities and support for teachers, beyond simply posting samples of materials, and we look forward to discussing these needs in the course of the project and as they relate to curriculum change.

Were you, as a member of the BCTF consulted? Most of you haven't heard about this agenda that will be forced upon you.

**DON'T BE A
CHILD-ABUSING PAWN!
RESTORE RESPECT TO THE
TEACHING PROFESSION.**

Hansman's is a self-styled "Social Justice Warrior". He and the other radical sex activists within the BCTF have dragged you into this abusive agenda that is designed to confuse and abuse children, violate your role and responsibilities to parents and actively engage you in a sectarian political movement as a minion for the social De-Constructionists (De-CONS).

This is political. This is abusive. This is illegal!

Then add the blurb about - Recent revisions... Recent revisions to the BC Human Rights Act outlaw ideas and feelings, not actions. Members of Parents United Canada (PUC) agree that discriminatory actions against identifiable groups should be prohibited; but making ideas verboten is fascist! Under the SOGI agenda, teachers are now required to abuse children, destroy their innate gifting, deliberately cause confusion, and attack and undermine those children with healthy family units—all under the manufactured brand of "inclusiveness and anti-bullying". This is political, this is illegal, and this is abusive.
